Attachments: Figure 5-1 Sample Grid Results Map -Wattle (Green) Locations (DRAFT).pdf

Sean indicated that he may be able to get his people to determine the linear footage of the amount of 9 in X 25 ft wattles we need based upon my proposed locations. Also, I was thinking that we may be able to use to Site for the TSCA soil stockpile and a portion of FJD03 (FJD03-02 and FJD04-01) for the Non-TSCA soil stockpile. In fact, if we need to use FJD03-02 and FJD03-01 that would be fine as well and we could make sure we scrape FJD03-01 and FJD03-03 as we dig out for finishing up.

Thanks
Gary Moore

Thank you, Gary. In retrospect, I wish I had saved some of these in Arizona.

We'll procure some for pickup when we arrive.

I reviewed the proposed route into/out of the site. Looks good and manageable.

Don

Don:

See attached map. This is where I am currently thinking we need wattles for this project. The locations are shown in bright green. Let me know if you have any operational comments associated with the locations or the project in general.

Thanks
Gary Moore
